Integrate Featured Products

Step 1: Assigning featured product attributes

Log into Magento Admin

Go to CATALOG -> PRODUCTS

Select the product which needs to be listed in the Featured product widget

And Enable “**featured**” product attribute

Step 2: Create two block with different store view (default and french store view)

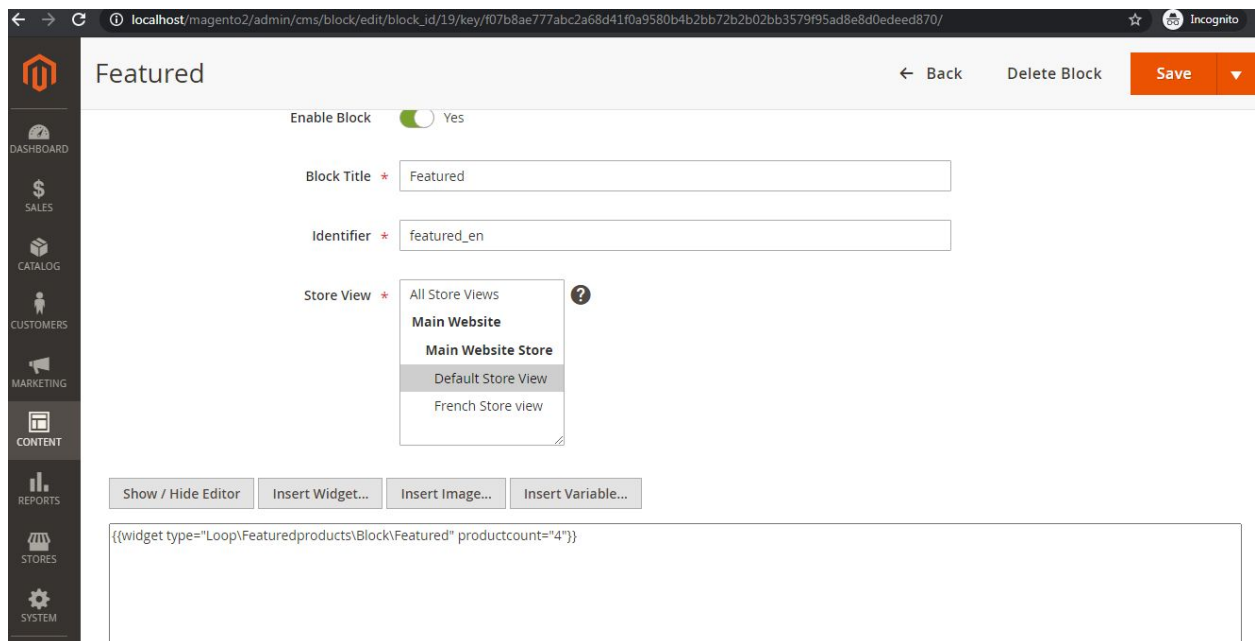

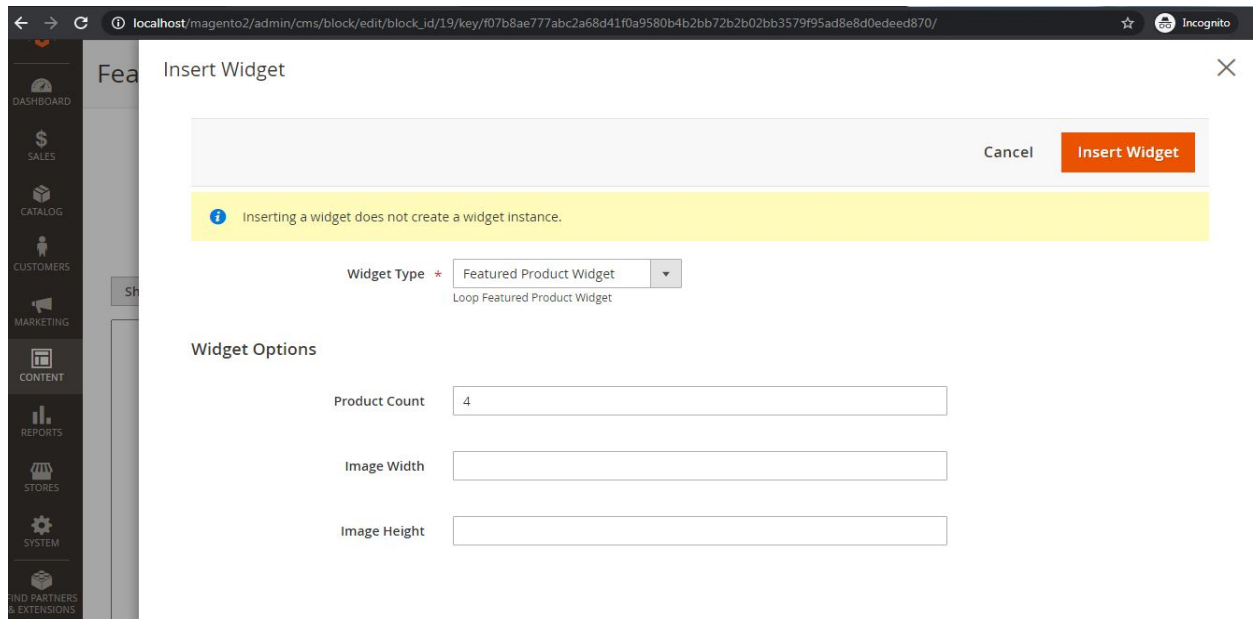

The screenshot shows the Magento 2 Admin Panel interface. The left sidebar contains navigation links for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Blocks' and displays a table of existing blocks. The table has columns for ID, Title, Identifier, Store View, Status, Created, Modified, and Action. There are 20 records found. The table lists five blocks: Eco Friendly Block, Giftcard Block, Login Info Block, Featured, and Featured French. The 'Featured' and 'Featured French' blocks are associated with the 'Main Website' and 'Main Website Store' respectively, and are configured for 'Default Store View' and 'French Store view'.

Step 3: Insert Featured Widget Block

Save the Static block

Step 4: Assign both the static block into Home CMS Page with two different classes. Which we will use

for two different Styling in the theme(I have used store_en, store_fr)

Step 5: Clear cache and Refresh the Frontend
