Integrate Featured Products

Step 1: Assigning featured product attributes

Log into Magento Admin

Go to CATALOG -> PRODUCTS

Select the product which needs to be listed in the Featured product widget

And Enable “**featured**” product attribute

Step 2: Create two block with different store view (default and french store view)

Else we can add a class based on store view in the phtml. Doing this will reduce the number of static block creating if we are doing for a larger number of store views

Step 3: Insert Featured Widget Block

Save the Static block

Step 4: Assign both the static block into Home CMS Page with two different classes. Which we will use

for two different Styling in the theme(I have used store_en, store_fr)

Step 5: Clear cache and Refresh the Frontend
